

Stochastic Analysis and Related Topics (Stochastics Monographs)

This volume comprises a collection of research papers covering topics at the centre of current research, which were presented at the Fourth Oslo-Silivri Workshop on Stochastic Analysis, Oslo, 6-10 July 1992. It contains the contributions from the main speakers, N.V. Krylov and D. Nualart, two of the worlds leading probabilists, as well as shorter research papers by a number of other specialists in the field.
