

Equine Herbal and Energetics

Equine Herbal and Energetics is the first equine herb book that explains plant energetics and how it relates to equine health and wellness. Each herb has information on energetics, folkloric uses, equine uses, contraindications, safety rating, aromatherapy, flower essences and homeopathy. Authored by two of the foremost voices in whole horse health -- Stacey Small, creator and founder of Sore No-More liniment, Equilite Herbals and Botanical Animal Flower Essences, and founding co-publisher of Holistic Horse magazine, and Andrea Baldwin, founder of Equibotanical an educational resource of the traditional uses of our plant allies. Equine Herbal and Energetics has won praise from such integrative veterinary medicine practitioners as Judith Shoemaker DVM, Joyce Harman DVM and Holistic Horsekeeping author Madalyn Ward, DVM, and equine ecologist MaryAnn Simonds, MA.
