

Domestic Violence and Mental Health

Gives practical guidance on how mental health professionals can identify and respond to domestic violence experienced by their patients. People with mental health problems are more likely to be a victim of domestic violence than the general population. Covers the prevalence of domestic violence and the current evidence base on effective interventions. Includes liaison with other agencies (e.g. social care, police). Covers relevant medico-legal issues and info to help professionals prepare to present evidence in court.

Readership All mental health professionals, especially those working with women. RCPsych Publications is the publishing arm of the Royal College of Psychiatrists (based in London, United Kingdom), which has been promoting excellence in mental health care since 1841. Produced by the same editorial team who publish *The British Journal of Psychiatry*, they sell books for both psychiatrists and other mental health professionals; and also many written for the general public. Their popular series include the College Seminars Series and the NICE mental health guidelines. RCPsych publishes in all areas of psychiatry and mental health, including but not limited to: Clinical psychiatric practice Intellectual disability Mental health services for children, adolescents, adults and the elderly Psychopharmacology Psychotherapy Rehabilitation psychiatry Family mental health Service provision RCPsych Publications books can help with the following disorders: Addictions Affective disorders Attention deficit hyperactivity disorder (ADHD) Bereavement Borderline personality disorder Cognitive-behavioral therapy (CBT) Dementia Depression Eating disorders Perinatal psychiatric disorder Post-traumatic stress disorder (PTSD) Psychosis Schizophrenia Sleep problems
