

## Street Smart Recovery

What will you when you have a drug or alcohol habit that you cannot quit or worse yet a loved one has the habit. \$50 a day or \$1,000 a day when you cant quit is a nightmare for you and your loved ones. Have you been to treatment? How many times? Are you still struggling to stay clean and sober. There is a solution to your problem. Treatment works and the twelve steps work but sometimes it helps to have a street smart friend to guide you along the way. For the last 18 years Ive been clean and sober and have been studying how other people do it. Ive been to the meetings and treatment centers and got good advice from good people who have helped me along the way: street smart advice. I have also worked on a couple of prison grants in Ohio and Maryland where I got to study the behavior of inmates released into society. I got advice from them also. My book was written in 1998 and maybe I should revise it but the information seems to be working just fine. Information you may or may not get in the treatment centers and jails. I cant be with you to help you, but through my book I can still be there by your side sharing with you what a lot of street smart guys and women shared with me along the way to keep us all clean and sober. I hope youll get clean and sober and stay way for a great new life.
