

The PEOPLE Process, Includes: Participants booklet, cardboard PEOPLE Process Wheel, 16 profile sheets

The PEOPLE Process is a quick, powerful tool for helping people understand and interact with others. It can be used for team building and all types of communication training. Rather than simply stereotyping people with a personality typing system, The PEOPLE Process helps participants understand how individuals vary in terms of their basic viewpoints and approaches in four key areas: focusing and generating energy, gathering information, making decisions, taking action. Participants determine their types by using the unique, colorful wheel to choose from a brief series of categories. In addition to the wheel and 16 profile sheets, each Participants Package includes a handy 63-page booklet filled with tips on using the principles of The PEOPLE Process. The step-by-step materials in the Trainers Manual can be presented in 2- or 4-hour sessions.
