

# DNA Decipher Journal Volume 4 Issue 1: Materialization of DNA Fragment and, Wave Genetics in Theory & Practice

DNA Decipher Journal (DNADJ, <http://www.dnadecipher.com>) is a publication in which biologists, physicists, mathematicians and other learned scholars publish their research results and express their views on the origin, nature and mechanism of DNA as a biological program and entity and its possible connection to a deeper reality. This is DNADJ Volume 4 Issue 1 first published in May 2014. It is a Focus Issue entitled Materialization of DNA Fragment and, Wave Genetics in Theory & Practice featuring the work of Peter P. Gariaev's Group. It contains the following: (1) Materialization of DNA Fragment in Water through Modulated Electromagnetic Irradiation; (2) Possible Quantum Entanglement in Medical Influence; (3) Pollacks Findings about Fourth Phase of Water: TGD Point of View; (4) Morphogenesis, Morphostasis & Learning in TGD Framework; (5) The Essence of Linguistic & Wave Genetics in Theory and Practice; and (6) The Strange World of Wave Genetics.
