

Miscellanea Mathematica (English, German and French Edition)

This Festschrift celebrates the contributions of scientific publisher, Heinz Gotze, to the mathematical community, many of whose leading members he counts among his personal friends. The articles, written by mathematicians from around the world and coming from diverse fields, portray the important role of mathematics in our culture. Here, the reflections of important mathematicians, often focused on the history of mathematics, are collected, in recognition of Heinz Gotzes life-long support of mathematics.
